

COMPANY PRESENTATION.

NWProteins is a division of the Nick Winters Group, which also incorporates Nick Winters Hides and Skins. Nick Winters Hides and Skins was established in 1992 by founder and Managing Director Mr. Nick Winters. Today the company is one of the leading exporters of hides and skins from Europe with a turn over in excess of 40 million Euros with over 40 employees in 4 countries.

NWProteins specializes in sales and marketing of frozen offal, animal co-products and rendering products from Europe to worldwide markets and mainly to Asian markets. Having a strategic partnership with the largest beef processor in France and many other sizable European meat packers, we are handling significant volumes of product.

NWProteins is a dynamic, professional and customer orientated organization looking to expand sales globally.

LOCATION.

NWProteins is located within the Nick Winters Group head offices in Larçay (Tours) at the heart of Loire Valley in the north west of France. NWProteins benefits from the Nick Winters Group network, which incorporates offices and warehouses in the UK, Ireland and Italy.

SUPPLIER BASE.

Due to strategic partnership with major European meat processors through our sister company Nick Winters Hides and skins, we have access to a very large supply base.

As a guarantee of product quality and service, we only work with large industrial abattoirs in order to best satisfy all your requirements. We represent our core business partners located in France, Ireland, Italy, Poland and the UK.

Only the best products are selected from high profile suppliers to maintain standards consistency.

PRODUCTS.

With more than 50 product references across many different animal species, we provide your business with an extensive range of items. Selected, trimmed, packed and labeled to your specification.
